## Other partnership opportunity

### Focus Group Meeting

Focus groups give companies a chance to ask experts and Key Opinion Leaders their opinion in a closed forum and are interesting for companies, who:

- Are about to launch a new product
- Are new to the European market and need feedback on their existing products
- Would like to establish contact to key opinion leaders
- Are interested in feedback on products or clinical studies

A focus group meeting at EORS 2024 has the advantage that you do not need to fly in and accommodate a group of people, as all Key Opinion Leaders are present at the conference in advance. This makes the focus group a cost-effective tool to get feedback and promote your product towards Key Opinion Leaders.

Expect about 7-8 KOL's to attend the focus group meeting that will last up to 1,5 hours during the conference. The focus group meeting will be arranged in co-operation with the conference organiser in terms of invitations and selections of people. Room rental, standard AV-equipment, and catering are included the fee.

Focus Group Meeting cost 8,000 €

### Participants

The expected number of participants at EORS 2024 is approximately 400 where the main part come from Europe but also from the rest of the world.

The type of delegates is both clinicians and multidisciplinary researchers interested in the field of orthopaedic research.

### Programme Main Topics

- AI in Orthopaedics
- Wearable Technology
- Musculoskeletal Infection
- 3D Modelling
- Tissue Engineering

### TOP 5 reasons to join and support EORS 2024

- Get new leads within your spot-on target group in an inspiring environment
- Network with top-notch international Key Opinion Leaders
- Showcase and demonstrate your portfolio or products in pipeline
- Brand your company as a valued supporter for the society of orthopaedic research
- Establish and invest in new partnerships
