

EORS 2024

32nd annual meeting of the European
Orthopaedic Research Society

18 - 20 September 2024

Aalborg University Hospital, Aalborg University, Denmark

www.eors2024.org

Welcome

It is a great honour to host and organise the 32nd Annual Meeting of the European Orthopaedic Research Society. Our health care system more than ever needs solutions building on combined domain knowledge from clinicians and medical scientists. This conference strives for accelerating the solutions for tomorrow's orthopaedics.

The mission of EORS is to promote research and development in orthopaedic surgery and related sciences in Europe through interdisciplinary coordination, exchange of scientific and technical experience, and education.

We look forward to welcoming you to Aalborg and to EORS 2024!

Søren Kold

Clinical Professor

Head of Limb Lengthening and Reconstruction,
Department of Orthopaedics,
Aalborg University Hospital

Ole Rahbek

Clinical Professor

Head of Children's Orthopedics,
Aalborg University Hospital
